

INTRODUCTION TO MAINE PRICING SCHEDULE – EXHIBIT A

Subject to the remainder of this “Introduction to Maine Pricing Schedule”, Exhibit A to the Agreement contains the rates and charges (including, without limitation, through incorporation by reference of Tariff provisions, where applicable) for the specific services, Network Elements and Interconnection methods (including, without limitation, Collocation) explicitly identified in and, made available under, the Agreement (including, without limitation, in Exhibit A to the Agreement); Exhibit A is intended to be consistent with the terms of the Agreement and the Commission’s Order in Docket 98-593 issued on March 25, 1999. Accordingly, if a specific service, Network Element or Interconnection method is explicitly identified in and, made available under, the Agreement (to include, without limitation, in Exhibit A to the Agreement), only the rates and charges set forth in this Exhibit A (unless explicitly identified elsewhere in the Agreement) may be charged by either Party; provided, however, that the Parties may agree to use additional or different rates and charges, and additional or different rates and charges would also apply (as further set forth in the next succeeding paragraph) if the Commission affirmatively orders rates and charges as a result of an adjudicatory proceeding of which Mid-Maine and BA had notice and an opportunity to participate, provided that, rates and charges included in a Tariff filing that did not include such an adjudicatory proceeding (e.g., where a Tariff filing was not investigated) shall not be deemed Commission ordered changes that would apply to the Agreement. In addition, rates and charges approved as part of an SGAT shall not be deemed to be rates affirmatively ordered by the Commission.

If the Commission approves additional or different rates and/or rate structures in the TELRIC costing and pricing proceeding in Docket No. 97-505, or in another adjudicatory proceeding of which Mid-Maine and BA had notice and an opportunity to participate, unless the Parties otherwise agree subsequent to the date of such Commission approval, the rates and/or rate structures established by the Commission in such proceeding shall be substituted for the rates and/or rate structures set forth in the Agreement. Subject to the last sentence of this paragraph, the Parties agree that those rates and/or rate structures shall be applied prospectively only, from the later of the date of (a) the Commission order approving the rates, (b) the effective date of the rates or (c) such other date designated by the Commission. If a Commission order approving rates is stayed, the rates set forth herein shall continue to apply until the rates are reinstated or new rates are approved by the Commission. Services, Network Elements and Interconnection methods set forth in this Exhibit A for which the rates and charges set forth herein are designated with an asterisk (*) shall be subject to true-up (to include interest at the short-term U.S. Treasury Bill rate) upon Commission approval of the same; with respect to those rates and charges in this Exhibit A that are not designated with an asterisk (*), if Maine-specific rates are not approved by March 24, 2000, either Party may submit a request to the Commission that it issue an order that such Maine-specific rates (when approved by the Commission) shall be applied retroactively under the Agreement (i.e., that the Commission issue an order for “true-up” of rates back to some date certain)(except that there shall not be a true-up of the monthly recurring charges for access to OSS for resellers or UNE purchasers once such charges are approved by the Commission).

To the extent that either Party agrees or, is required by Applicable Law, to provide a specific

EXHIBIT A

service, Network Element or Interconnection method that is not explicitly identified in the Agreement (including, without limitation, in Exhibit A to the Agreement) as of the Effective Date, the following shall apply: the rates and charges set forth in applicable BA Tariffs shall apply; if BA Tariffs do not contain such rates and charges, the rates and charges set forth in BA's Maine SGAT shall apply (even if the SGAT is in a withdrawn status at the subject time); or, if BA's Maine SGAT does not contain such rates and charges, the Parties shall negotiate in good faith (to include, without limitation, through use of the BFR process) to determine the appropriate rates and charges for the specific service, Network Element or Interconnection method. If the Parties do not reach agreement on such rates and charges, either Party may invoke the dispute resolution procedures set forth in the Agreement. In addition and, as a separate right independent of the dispute resolution procedures set forth in the Agreement, either Party may, in the case of such nonagreement on rates and charges, petition the Commission to establish interim rates and charges pending resolution of the dispute resolution process.

Reciprocal Compensation Calculation – Rates Applicable to Both BA and Mid-Maine

I. Time of Day definitions - as specified in PUC Me - No. 17, Section 6.64

II Base Rates - per Minute of Use are as follows:

Day Rate \$0.009

Evening Rate \$0.0073

Night Rate \$0.0029

III Formula for determining Reciprocal Compensation (%Day Traffic + %Evening Traffic + %Night = 100% for each Party)

(Mid-Maine-originated Day Minutes + BA-originated Day Minutes) * Day Rate / Total Mid-Maine + BA Minute

+

(Mid-Maine-originated Evening Minutes + BA-originated Evening Minutes) * Evening Rate / Total Mid-Maine + BA Minutes

+

(Mid-Maine-originated Night Minutes + BA-originated Night Minutes) * Night Rate / Total Mid-Maine + BA Minutes
